

Hello everyone,

I am interested in being considered for the TTRA International Board of Directors.

As the current VP of the CenStates board, I've been a dedicated member of not only the regional chapter, but the international organization for years. I joined TTRA back in 2015 and have sat on several MOF conference planning committees, attended many MOF and Annual conferences, presented at conferences, participated in webinars, and assisted the board on several projects related to membership and vendor perceptions.

Over the past few years as a board member, and currently the Vice President of Censtates, I've helped to plan our annual conferences, and acted as the lead alongside Treeline last year in Sioux City, worked to retain sponsorships, grow the membership, and assist the President to create a new strategic plan for the chapter.

This organization has strengthened my bonds in the industry, been a great resource for insights and learning, and given me a way to grow my experience in the tourism field. I'd love the opportunity to be considered for the board elections so I am able to volunteer my time and skillset to the association to continue its success well into the future, and give back to TTRA for all its provided to me.

Thank you for your consideration,
Kelsey
